

All City Corporate Transportation, Inc. receives Minority Owned Business Certification (MBE)

10/30/2015

Brooklyn, NY - All City Corporate Transportation (All City), Inc. announced today it received certification from the City of New York as a Minority-owned Business (MBE). This certification is achieved after undergoing a rigorous review process with the New York City Small Business Services and opens the doors to City, State and Business entities seeking to expand their Minority-owned Business vendors.

All City's President Chris Demergis in conjunction with the All City Board of Directors has worked diligently with the Small Business Services and the 275 shareholders of All City to earn this certification. "It is the first cooperative in the City to earn the MBE certification, and we are very proud of that. All City has a long history of providing service in the market since its Origins in 1979 as a NYC Yellow Taxi Co-Operative converting to a Black Car Co-Operative in 1987. It is another great benefit we can provide for our customers." All City has provided Black Car Services in the market since 1987 and services numerous corporate, personal and government customers. In 2011 they made an affiliated business agreement with the Executive Transportation Group (ETG) and have provided service to many thousands of customers since then while working hand in hand with ETG.

The MBE certification provides the additional benefit to All City and ETG customers of working with minority owned vendors as part of their overall ground transportation programs. "There are many of our customers who seek to add MBE vendors in to their mix and we'd be happy to assist them in achieving their goals" stated John L. Acierno, ETG's President and CEO. "This certification is another tremendous benefit that one of the companies affiliated with the ETG consortium of companies can provide to its customers."

About All City: All City has been operating as a cooperative group since 1987, providing Black Car services in the metro New York market. The majority of the drivers own shares in the company, are owner operators and this privilege has developed among them a strong sentiment of commitment and ultimate responsibility. For more information please contact Chris Demergis, President, at (718)438-1100 x 5153

About The Executive Transportation Group (ETG): The Executive Transportation Group is the largest provider of Executive Sedan and Black Car services to companies in the metro New York market. ETG provides safe and reliable ground transportation to corporate customers. For more information please contact Mark Heminway at (718)438-1100 x3240 or visit www.executivecharge.com.
